

Don't buy Soda Stream

**It is made in an illegal Israeli settlement
on stolen Palestinian land.**

Ask stores not to carry it.

SodaStream is a home water-carbonation device that markets itself as an environmentally friendly product. But there is nothing friendly about Israel's occupation of Palestine, its destruction of Palestinian homes, or its ethnic cleansing of Palestinians from their native lands. Join the Global Effort to Restore & Protect Human Rights in Palestine-Israel

For the past several decades, the Israeli government has continuously violated United Nations resolutions and international humanitarian law regarding the rights of the native peoples of historic Palestine.

Palestinians living inside of Israel are second class citizens without the same rights or benefits as Jewish-Israelis. Palestinians living in the West Bank and Gaza face a daily brutal military occupation and continuing colonization that steals their land and water. Palestinian refugees have not been allowed to return to their homes and lands as required by U.N. Resolution 194.

Now there is a global Boycott, Divestment & Sanctions (BDS) effort to put economic and political pressure on Israel to end its apartheid, occupation, human rights abuses, and violations of international law. BDS worked to restore human rights to the native population of apartheid South Africa and it can do the same in Palestine-Israel. You can support this effort:

- **Don't buy Israeli products and ask stores not to carry them**
- **Don't buy from companies that sell products to the Israeli military**
- **Don't invest in Israeli companies**
- **Tell Congress to stop giving our U.S. tax dollars to Israel (over \$8 million/day): 202-224-3121**
