

Support human rights: Don't buy Soda Stream

And ask stores not to carry it

SodaStream is made in Israeli illegal settlements in Palestine's West Bank. Israel's settlements on occupied Palestinian land are a violation of International Law, the Geneva Conventions.

Buying Soda Stream, supports the Israeli government's: illegal settlements that steal Palestinian land and natural resources while furthering Israel's economic and brutal military occupation and ethnic cleansing of indigenous Palestinians.

SodaStream is a home water-carbonation device that markets itself as an environmentally friendly product to "Turn Water Into Fresh Sparkling Water And Soda" ... but there is nothing friendly about the theft and destruction of Palestinian life, land and water resources!

Join the Global Effort to Restore & Protect Human Rights in Palestine-Israel

For the past several decades, the Israeli government has continuously violated United Nations resolutions and international humanitarian law regarding the rights of the native peoples of historic Palestine.

Palestinians living inside of Israel are second class citizens without the same rights or benefits as Jewish-Israelis. Palestinians living in the West Bank and Gaza face a daily brutal military occupation and continuing colonization that steals their land and water. Palestinian refugees have not been allowed to return to their homes and lands as required by U.N. Resolution 194.

Now there is a global Boycott, Divestment & Sanctions (BDS) effort to put economic and political pressure on Israel to end its apartheid, occupation, human rights abuses, and violations of international law. BDS worked to restore human rights to the native population of apartheid South Africa and it can do the same in Palestine-Israel.
